

On November 3, 2011 the seat post assembly on the UBK10 (Upright Bike) was changed from a universal seat post assembly to a fixed seat post assembly. Precor will upgrade seat posts on UBK10 bikes manufactured prior to November 3, 2011 with a fixed seat post. **See Diagrams 1 & 2 (The Seat is not included in the Assemble).**

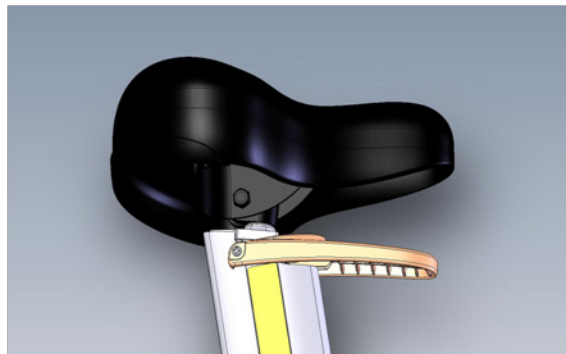

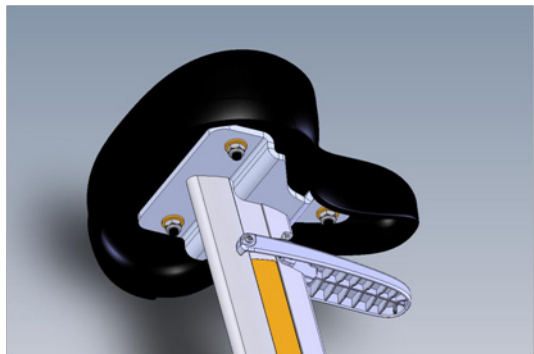

If a replacement seat post is needed on a UBK10 built prior to November 3, 2011, which shipped with the universal seat post assembly, the customer will only receive the fixed seat post assembly as the replacement, part number 58029-101.

For those people who require a non-Precor bike seat for their UBK10; a universal seat post is available for purchase, part number 300618-102. Contact **Precor Sales or Customer Support** for pricing.
